## The future of jet fuel markets

The initial euphoria of a quick post-COVID recovery to jet fuel markets has now died. In addition to near-term challenges, jet fuel markets are also beset with long-term constraints. What is the future of jet fuel? [Read more >>](#)

## Landfill to energy

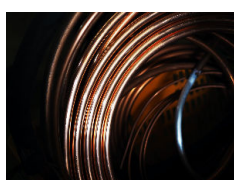

There is a lot more to the Energy Transition than solar and wind power. A good example is landfill and renewable natural gas, which is finding a lot of new interest. [Read more >>](#)

## The ADI Forum returns in 2022!

Helping EPCs succeed in LNG

Watch Scott Chrisman, former CCO, Sempra LNG and Lisa Leland, SVP, Gas Supply, Annova LNG discuss EPCs in LNG [>>](#)

## Steep climb for copper

Copper demand is expected to reach new heights as the electric vehicle industry flourishes. New projects are underway but it will be a steep climb for copper supply. [Read more >>](#)
