FEATURED INSIGHT

What the EQT–Range deal means for gas prices

As EQT acquires Range Resources, ADI explores what that means for gas prices in the Appalachia and at the Henry Hub. Read more >>

ENERGY TRANSITION

Role of oil & gas in the energy transition

Oil and gas has more to contribute to the energy transition than it is often given credit for. Geothermal draws directly on drilling and completions expertise, and the ability to stand up large capital projects matters more as first-of-a-kind projects scale. Watch now >>

RECENT ADI PROJECTS

- Drilling chemicals market sizing and growth assessment for an **oilfield chemicals company**
- Data center power price assessment for a **behind-the-meter power project developer**
- Industrial energy management assessment for a **global automation company**
- EPC cost, schedule, and commissioning diligence on critical minerals project for an **investor**
- Polymers and materials needs across data centers and AI infrastructure for a **chemical major**

MULTI CLIENT STUDY

Water limits reshape oil & gas and power operations

Rising produced-water volumes, tightening disposal options, drought, and growing cooling-water demand are making water an increasingly important operating issue across upstream, refining, power, and chemicals. ADI's new study examines where water risks and opportunities are emerging and how companies can respond. Download prospectus >>

NATURAL GAS

Permian gas processing and connectivity bottlenecks

As Permian natural gas production outpaces infrastructure growth, the next midstream challenge comes from natural gas processing and pipeline connectivity constraints. Read more >>

ADI FORUM

See who's speaking at the 10th ADI Forum

Hear from Charlie Beecherl of WTG Energy, Keith Shoemaker of Coastal Bend LNG, and Andy Puhala of Stabilis Solutions at the 10th ADI Forum on January 28 in Houston. Early-bird pricing ends December 31, so register today and save $400.

OILFIELD EQUIPMENT

OCTG outlook after the Middle East conflict

As Middle East crude exports climb back to pre-war levels, continued geopolitical uncertainty is spawning new oil & gas capital and infrastructure investments driving OCTG outlook. Learn more >>

MIDSTREAM

Trends shaping the U.S. midstream outlook

LNG export capacity expansions and data center power demand drive a new wave of midstream investment, with growth opportunities concentrating in natural gas and NGL infrastructure. Read more >>

WHAT'S NEW IN ADI PLUS

- Implications of the Iran conflict across oil & gas, LNG, refined products, and chemicals
- Databases on ammonia projects, U.S. refineries, global LNG capacity, and U.S. data center projects
- Outlooks on diesel demand, LNG export terminals, and global HVO/RD capacity
